

ECS SERVICENOW NSC MIGRATION SERVICES

Secure Your ServiceNow Platform Without Losing Momentum

You're about to enhance security and compliance and implement additional controls by migrating to the secure IL5 environment of ServiceNow's National Security Cloud (NSC). It'll be quite an accomplishment.

But first, you'll need to tackle the administrative and technical challenges of authorization and migration — and they're no easy lift. Time and resource intensive, they can mire a team down in delays and jeopardize system access entirely.

The first ServiceNow partner to migrate a customer to the NSC, ECS can help you get your organization to that next level of security and compliance with speed, ease, and efficiency.

We Do the Heavy Lifting. You Focus on Your Mission.

Make Your NSC Migration Easy – ECS will handle every step of the Risk Management Framework (RMF) and Authorization to Operate (ATO) processes, and the technical challenges of the ServiceNow SaaS platform and NSC environment.

Stay Focused on Your Mission – Your team won't need to spend time learning ServiceNow or the complexities of getting the SaaS platform secured and authorized.

Reduce Risk and Accelerate Time to Value – Our scalable, repeatable approach reduces the risk of delays or loss of access.

Uniquely Qualified to Support Your Migration to the NSC

ECS is the first ServiceNow partner to provide the transformative benefits of ServiceNow in the secure IL5 environment of the NSC.

297

ATOs attained

2,000+

government clearances

Services for Every Migration Scenario

- Migration of your existing ServiceNow instances from:
 - The ServiceNow GovCommunityCloud (GCC)
 - Other cloud environments
 - Self-hosted on-premises environments
- Implementation of new ServiceNow instances in the NSC
- IL5 (NSC) and IL6 (SIPR, JWCC) implementation and hosting
- End-to-end expert support through RMF and ATO processes
- Ongoing ATO maintenance support for long-term success

Choose Your Delivery Model
